

**ANHUI WILLIAM(VICUT) CNC TECHNOLOGY CO.,LTD**

## **Sheet Label Cutter**

### **Automatic Registration Mark System**

**[www.CNCVICUT.com](http://www.CNCVICUT.com)**

**ANHUI WILLIAM(VICUT) CNC TECHNOLOGY CO.,LTD**

## Features

1. Lightweight space-saving design, servo motor control system
2. Constant paper feeding mechanism ensure continuous multi-sheet cutting
3. Improved paper feeding system delivers consistent thick paper cutting with zero paper jams;
4. Optimized paper induction system to direct the paper status automatically
5. Unique mark system saves paper waste
6. Automatic mark detection increases scan and cut accuracy
7. Intelligent sensor design, seven sensors working in cooperation to deliver outstanding cutting results

## Applications

This cutter can be used for cutting almost all kinds of material, like economic photo paper, T-shirt transfer paper, photo quality inkjet card, stickers, glossy paper

## Technician Parameters

Item	Detail
Model	Sheet to sheet Label cutter(A3+)
Max. straight line cutting speed	960mm/s
Max. force	750g (3g/step)
Max. media width	16"
Max. cutting width	12"
0-3000 RPM time	< 20 MS (idle load); <1200 MS (working)
Encoder signal	physical 1016 line/ round, logical 4064 line/round
weight	NW/GW: 45kg/65kg
Packing size	90*60*40cm

**Standard Packing List**

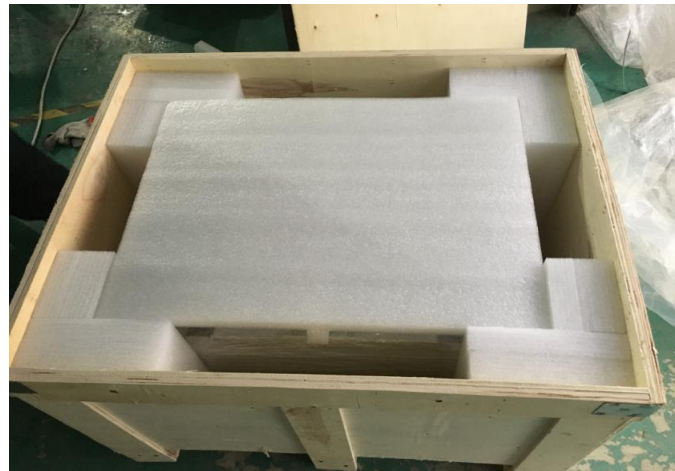

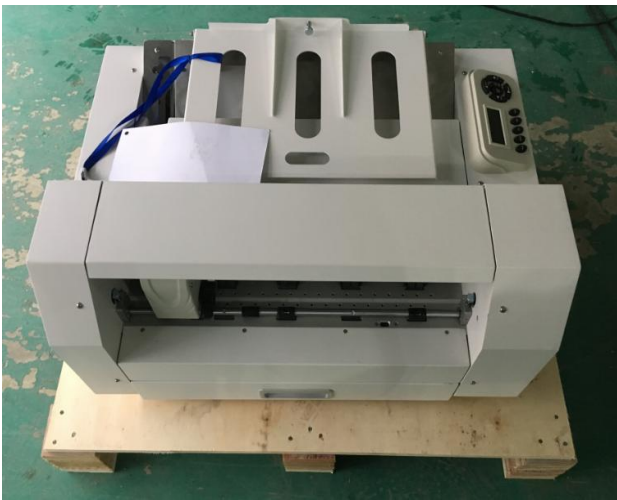

Seq	Item	Photo	Details
1	SD Card		1pc SD Card
2	USB line		1pc USB line
3	Power line		1pc power line
4	Cutting blade		2 boxes cutting blade, 3pcs/box
5	Tool holder		3pcs tool holder

**ANHUI WILLIAM(VICUT) CNC TECHNOLOGY CO.,LTD**

6	Screw		1 box screw
---	-------	---	-------------
